Subject
Open Season 2019

Dear Madam or Sir,

With this letter we would like to inform you about the start of the new Open Season "OS2019" of Gasunie Transport Services ("GTS"). This Open Season will focus on the capacity needs of customers in the Dutch gas transmission system.

In OS 2019 customers can request long term firm capacity on all existing points and for new points in the GTS network with a minimum contract duration of ten years. Customers can also offer secondary capacity on all existing points to GTS for use in OS2019. As GTS strives for an optimal use of the existing capacity in our grid, we first will try to fulfil any capacity request made under the OS2019 with capacity made available by other customers on a secondary basis and then with firm capacities available in the existing GTS network. If these two sources of capacity are not sufficient then this means that additional capacity needs to be constructed. If this is the case, we aim for 1st October 2019 as the target date for this additional capacity to become available.

Customers make firm commitments for acquiring capacity under this OS2019 by signing a Precedent Agreement or Secondary Capacity Offer. The deadline for signing such a Precedent Agreement or Secondary Capacity Offer is March 31st 2014. This deadline takes into account the PRISMA auction for yearly capacity on March 3rd 2014, enabling shippers to first join this auction in order to obtain capacities they might need. If after the auction shippers are still interested in additional capacities, they can sign a Precedent Agreement for OS2019.

Shortly we will launch an OS2019 webpage on our GTS website where you can download, amongst others, the brochure on OS2019 with more detailed process information and an indicative timetable: <http://www.gasunietransportservices.nl/openseason2019>

This letter is the start of the non binding phase. You are invited to sign the registration form for participants, which you can download from the website. If you want to participate in the binding phase of OS2019, which will start mid January 2014, signing of the Confidentiality Agreement and Declaration of Intent is also required.
