A participant in this capacity release should be a party with licensing LA or LB ('shipper') as defined in article 3.2 of the "Transportvoorwaarden Gas – LNB". A shipper who is interested in booking capacity on the above mentioned network points can send a booking request (enclosure; form A up to and including J), which must be received by us at **Monday 17 September 2012, 12:00 hours (LET)** at the latest. Per network point, only one booking form per shipper will be accepted.

Subject: Release firm capacity and announcement available capacity under construction

In the event more than one booking form per shipper will be received by us, the most recent completed booking form we receive before the deadline will be considered by us as the formal booking request.

For all points and for the release period concerned in this capacity release:

- Booking requests via the regular procedure (GEA Click & Book and/or booking form from the GTS website), will be rejected from Wednesday morning 1 August, 8:30 hours (LET).
- Interruptible capacity booked before Wednesday morning 1 August 2012, 8:30 hours (LET) will be upgraded – as far as possible - to firm before firm capacity will be released.
- Due to the upgrade process some network points will be switched to "Manual" in GEA Click and Book in September. This means that our planning department will handle the requests manually. To be able to process your request(s) for these network points in time – for example in case of day-ahead bookings – you have to send in your booking requests by our application GEA on working days before 12 noon (LET, D-1).

We will inform you via GEA Click & Book per network point when we switch to manual processing and for which period. We would like to advise you to read the messages in GEA Click & Book regularly for the latest status.

We will inform all participants at the latest on Thursday 27 September 2012 before 12:00 hours (LET) on the status of their individual booking request.

After this capacity release, the possibility to book capacity via the regular procedure - on the points mentioned in this letter - will be reopened as from Thursday 27 September 2012, 12:00 hours (LET) onwards.

Release firm capacity

In this capacity release a limited amount of firm capacity per network point will be available and such capacity amounts can differ per month.

We request the participant to indicate in the attached booking form(s), when the assigned firm capacity is less than the amount requested, if he wishes to:

- Cancel the booking request.
- Book capacity to the indicated minimum level for the whole period. If the assigned amount is less than the minimum level, we will cancel the booking request.

In case the total amount of the by participants requested firm capacity exceeds the total available firm capacity, a notary will determine per network point and/or per flange the order in which the booking requests will be handled.

New long-term firm capacities under construction

In addition to the abovementioned release of capacity, GTS also offers to the market for 2014 and/or subsequent years additional firm capacity which is currently under construction. It considers the following network points:

Exit points:

Hilvarenbeek exit: from October 2016

Zelzate exit: from October 2014

Cluster 's Gravenvoeren/Bocholtz (Limburg) exit: from October 2016

Entry point:

Cluster Emden/Oude Statenzijl-H entry: from October 2015

The construction activities relevant for the availability of these capacities are planned to be finalised on 1 October 2014 at the latest. These capacities can be booked. With timely and successful finalisation of the construction activities you will have firm capacities (as booked) as a result.

If you are interested in firm capacity under construction you can contact your account manager, who can check whether your demand can be fulfilled. You can book this capacity for one or more years as follows:

- download the contract for this capacity from the GTS website:

http://www.gastransportservices.nl/en/shippers/our_services/capacity-under-construction

- print and fill in the contract (customer name, point, period); and

- email a signed scanned copy to info@gastransport.nl.

The date and time of receiving your email with the attached signed contract will be the time stamp of your binding booking.

Please contact your account manager or from Monday 3 September our Customers Desk (+31 (0)50 521 33 33) in case you have any further questions.

Yours sincerely,

GAS TRANSPORT SERVICES B.V.
